Elevating Brands and Accelerating Performance Throughout the Global Retail Supply Chain

Avery Dennison® 9485 Portable Printer

Accelerate Performance: Price Management

Accelerate performance in price and item identification in the store, reducing complexity while improving speed, efficiency and accuracy.

Improve In-Store Efficiency Through Enhanced Productivity

Designed to improve in-store efficiency through enhanced productivity of retail price-marking applications. Compatible with virtually any data collection terminal on the market.

The Avery Dennison 9485 portable printer can increase your productivity when performing the following applications:

- Re-tagging, reticketing and markdowns
- Shelf-edge labelling and shelf-talker signage
- Sell-by and reduced-to-clear labelling
- Returns marking
- Promotional labelling
- Item marking

Palm-Sized Productivity Smaller and lighter than the competition, this compact portable printer is designed to be worn for everyday use without fatiguing your sales assistants.

Accelerated Price-Marking Innovative peel functionality enables efficient label printing and faster re-pricing, making the item available again immediately for sale.

Improved Customer Service Markdowns are performed right on the sales floor instead of the sales assistants walking to the back room for markdown labels. That means the sales assistants stays on the floor, available to help customers.

Enhanced Power Management Intelligent, configurable sleep mode saves the battery power for when you need it, maximizing productivity by printing more labels on a single charge.

Rugged Drop-tested from 1.4m (five feet) to ensure the printer will continue working normally, even after being dropped.

High Level of Security Compliance for the Most Sensitive Applications Enterprise security connectivity brings wired security to WLAN networks by employing the latest data encryption and authentication standards. This ensures reliability and enables straightforward integration into your system.
